## Off-Grid Mobile Fabrication Units

On-Demand Fabrication & Support. Anywhere.

# SUNFORGE

mobile fabrication units

## Off-Grid Mobile Makerspaces

Sunforge Mobile Fabrication Units encapsulate the future of adaptable field operations, marrying fabrication tools like 3D printers and CNC machines in a compact, deployable trailer. With solar power and battery banks, they assure sustained off-grid operations, even in isolated locations, while adhering to stringent military durability and security standards.

### Desktop Fabrication Tools

A comprehensive range of tools, including 3D printers, laser cutters, CNC machines, 3D scanners, and cordless traditional workshop devices to ensure maximum operational flexibility.

### Off-Grid Capabilities

Solar power & battery banks reducing operational costs and ensuring uninterrupted fabrication even in remote and off-grid locations.

### Secure & Robust

Built with military standards in mind, ensuring durability, security, and longevity.

### Fabrication Library

Tap into an expansive library of pre-designed fabrication content, curated to align with the specific needs and objectives of each operation, ensuring timely and relevant production.

### Remote Operation Support

Enhancing safety and adaptability by allowing expert personnel to operate and support tools from any location.

### Ease of Use

Intuitively designed, ensuring that even individuals with minimal training can operate the equipment effortlessly.

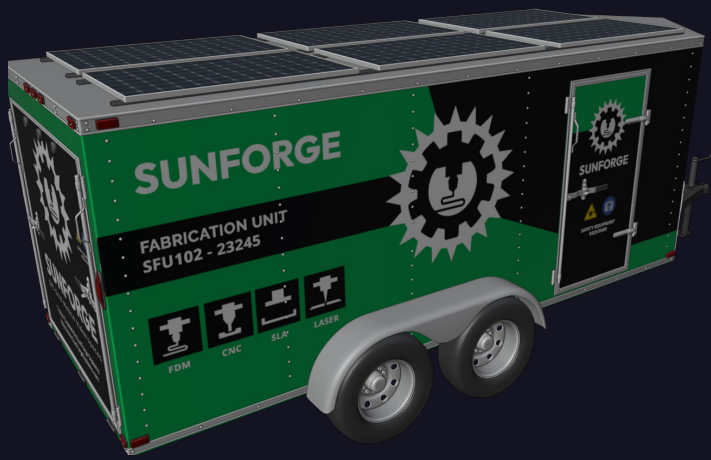

**Rapid Prototyping:** Swiftly develop and iterate prototypes directly in the field.

**Part Replacement:** Fabricate essential parts on-demand, reducing downtime and increasing efficiency.

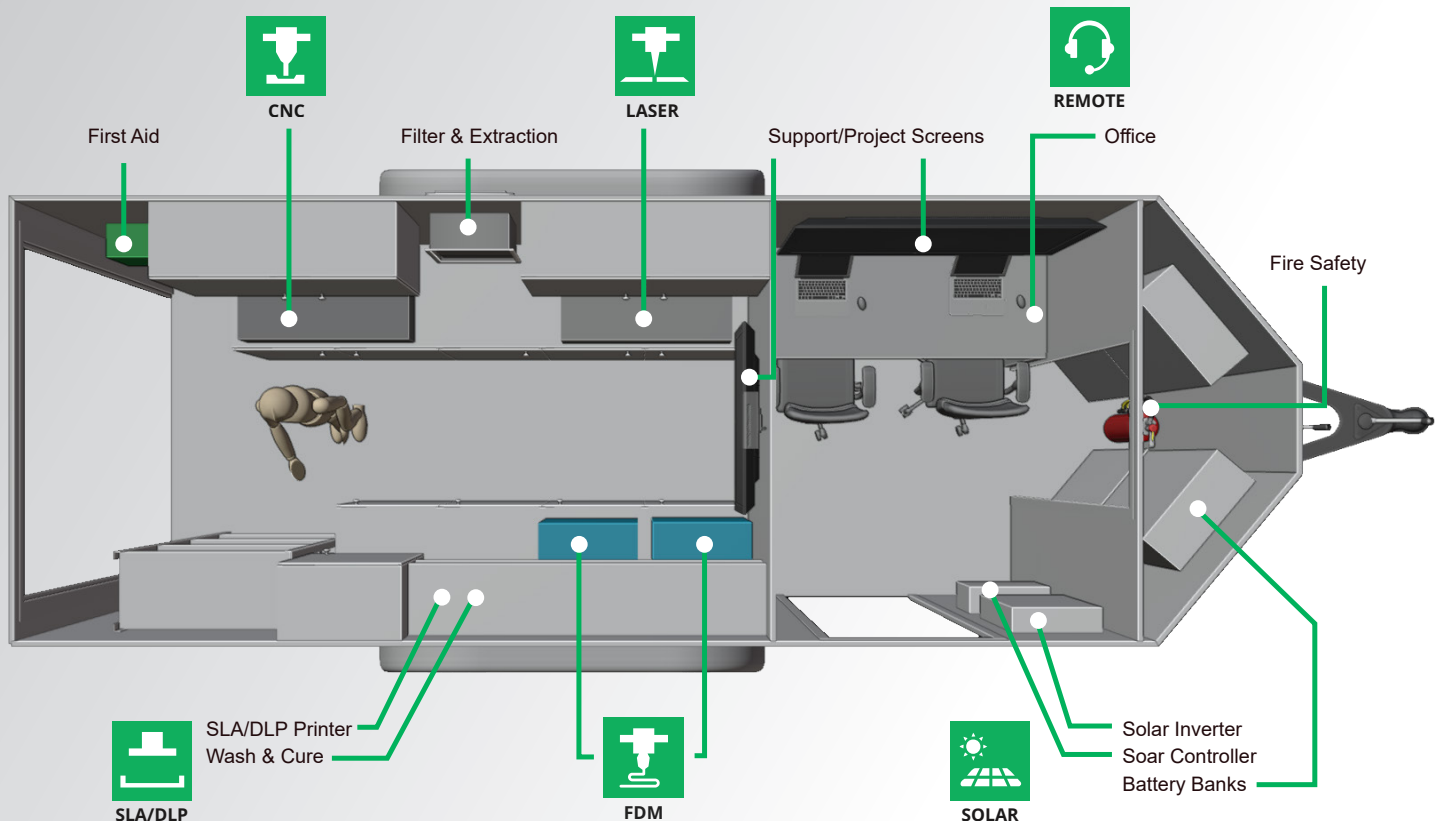

**Operational Versatility:** Support diverse missions with specialized equipment needs

**Safety & Efficiency:** Minimize personnel exposure in hostile environments with remote capabilities.

## Off-Grid Mobile Makerspaces

## Off-Grid Fabrication for Diverse Needs

In an ever-evolving world, the ability to adapt and create on-the-fly is invaluable. Sunforge MFUs are your all-in-one solution for on-site, custom fabrication. From hostile environments, to disaster-stricken areas, and even in educational settings, our trailers – equipped with a suite of advanced tools and remotely operated – are primed to cater to diverse demands and scenarios.
